NEW JERSEY ELECTION.

CONSTITUTIONAL AMENDMENTS TO BE VOTED

DEON. To-day the people of New Jersey will be called upon to vote upon the several amendments proposed to the constitution of the State. A bitter fight is anticipated in several sections, more particularly in Jersey City, Newark, Paterson and Trenton by the Catholic voters, who were on Sunday admonished by the clergy by direction of Bishop Corrigan to oppose certain of the proposed amendments, especially that to protect the public schools. The following amendments are noted by the Bishop as obnoxions:-

are noted by the filshop as obnoxious:—

1. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual association or corporation, or become security for, or be directly or indirectly the owner of, any stock or bonds of any association or corporation.

2. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

tion whatever.

8 Insert the word "free" between the word "public" and the word "schools," and add to the paragraph

the following:

"The Legislature shall provide for the maintenance and support of a thorough and efficient system of free public schools for the instruction of all the children in this State between the ages of five and eighteen years." In carrying out the instructions of the Bishop the

following circular was on Sunday freely distributed the several churches:-

CIRCULAR.

CHICHAR.

OFFICE OF THE CATHOLIC UNION OF NEW JERSEY.

CITIZENS OF NEW JERSEY:—On next Thresday, Septemb
7, you will be called upon to vote for or against the propose
constitutional amendments, at the special election held
the usual places throughout the State on that day.

The Constitution is the very foundation of our liberties, a
should never be altered or amended without the almost ana
mous desire of the whole people. There is no principle
volved in these preposed amendments that is not within t
reach of our Legislature and courts, as constructed und
the present constitution.

would, persups, be worse consisted than ever twee three amendments. The simple fact is that the people at large are either not expected to vote at this special election, or if they do vote to vote binning.

The long list of amendments that relate to the civil liberaties of the people, we leave to be discussed by the general public. Many people are alread, secured by the general public Many people are alread, secured to the civil liberaties of the people, we leave to be discussed by the general public. Many people are alread, that point, which they think has some bearing an extended to the continuous that their funncial or political opinions; but never the point of the transmitted opinions; but never the point of the large is raised in defence of the opinions; but never the point of the large is raised in defence of the class of constitution "tickers," who would bind their Catholic fellow citizens hand and foot, is apparent. It is their object to provoke discussion on minor points, in order to divert the attention of the large number of liberally disposed non-Catholic voters from their read design, which is to fasten upon the Catholics, Quakers and certain members of other denominations, by constitutional amendments, an expensive system of public education utterly repugnant to tipen, and which they cannot, in conscience, use. We have long been aware of those proposed amendments, but knowing they were likely to be adopted, we had determined to aw nothing and wait until a sense of justice in these matters returned to our fellow citizens. However, within the past few weeks those constitution "tinkers" have deemed it necessary, in order to rouse the anti-Catholic sentiment, to pour out.

necessary, in order to rouse the anti-Catholic sentiment, to pour out to rouse the anti-Catholic sentiment, to pour out to remark of anose against Catholics.

The entire anti-Catholic press of New Hersey, assisted by papers of the same steps to be neighboring States, together with religious steps over the neighboring states, together with religious steps over the seeds of religious bigotry and interest of the same steps of the seeds of religious bigotry and interest of the seeds of religious bigotry and interest of the seeds of the seeds of religious bigotry and interest of the seeds of the superme Court of Ohio, in a recent decision, says.—

"It is not by mere toleration that every individual here is protected in his boile of disbellet. He reposes not upon the enterney of government, or the liberality of any class or seet of men, but upon his natural indecasible right of conscience, which is the language of the constitution, and beyond the control of any human authority." (Bloom vs. Richards, 2 Ohio St., 387; McGatriek vs. Wason, 3 Ohio St., 593.) [Hu addition to all this abuse vulgar "cartoons" are being frequated, and on Sanday, August 29, a general circular was read from nearly all the Protestant pulpits in the State. Under these circumstances we have determined to abandou amendments, and, in cousequence of this unprovoked abusa and malignity, to raise our voice in peaceful protest against this proposed injustice.

Among other standards we are charged with favoring ignorance, where we have been a solar with favoring ignorance, where we have been a solar with a solar of the percential schools, containing nearly if not quite as many children at the public schools of this State! out in these schools we not only give our children a project scenar dues the many time instruct from in their duties toward containing nearly the containing nearly in the problem of the many time instruct from in their duties toward containing nearly when the next nearly containing nearly when the public fellow chirens know and supremote all this, but unfortunately when questions like these amendments are before the public these liberal minded people are thoughtlessly prejudiced against us by the handful of anti-Catholie bigots who manipulate these measures. This latter class base our religious so carnessty that they are unwilling that we should transmit it even to our own children. They blindly agnore the fact that the masses of the people are poor, and that in the large centres of population the poor are generally Catholies. In times like the present, when the wealth of the country is being centred in the hands of a few, and when poverty, wretendenses and probable starvation stare the masses of memployed laborres and their helpiess families in the face, God only knows what would become of their lives and property but for the moral influence of hat same Catholic Church which they present as unrelentingly.

JOHN NEANERNEY, Jr., President, Jour Gannick, Secretary. The following amendments are not to be voted for,

by order of the Bishop :by order of the Bishop.—

For the proposed amendment designated paragraph 10, to article I, relative to "Bights and privileges."

For the proposed amendment designated paragraph 20, article I, relative to "Rights and privileges."

For the proposed amendment designated paragraph 20, article I, relative to "Rights and privileges."

For the proposed amendment designated paragraph 6, section 7 of article 4, relative to "Legislative."

For the proposed amendment designated paragraph 9, section 7 of article 4, relative to "Legislative."

A HERALD reporter called many forms the paragraph 11, section 7 of article 4, relative to "Legislative."

A HERALD reporter called upon Father Henry Hens, paster of St. Beniface church, on Main street, Paterson, pastor of St. Boniface church, on Main street, Paterson, who stated no tickets were circulated in his church during the service on the fabhath last, owing to the fact that he did not receive them in time from the "Union" for distribution. He understood that they had been sent for circulation by Bishop Corrigan, but as he did not get them in time he instructed his congregation to vote according to what he had understood was the desire of the Bushop.

He further said that he had received the following instructions by letter from the bishop:—

"I have taken legal advice, and am informed that by the new constitutional law church property is liable to taxation. Let them strike out that which is against the church."

taxation. Let them strike out that which is against the church."

The reporter also called upon Father McNulty, of St.
John Baptist church, located on Main street, who stated that he could not deny the fact that circulars were distributed. He also said:— "Had the Catholic societies mentioned this matter within themselves it would have been a success. Giving the tickets out is the church was wrong. Some ignorant person allowed the tickets to be taken from him; that is the way the pross got hold, him; that is the way the pross got hold of it. He contended that the soricities should have taken hold of it quictly." Father Maley, of St. Joseph's church, could not be found, but several of the members stated that tickets were given out at the morning service. In Jersey City a very strong opposition is made to

paragraph No. 12, which, it is alleged, would, if sanctioned, procure the taxation of mortgages to such extent that all such lieus would be foreclosed. It is said nearly all the real estate in the city is mortgaged, and the effect would be to take away homes from thousands of familiars.

NEW JERSEY'S CONSTITUTIONAL AMENDMENTS.

MORRISTOWN, Sept. 6, 1875. The Roman Catholic priests of this neighborhood from their pulpits yesterday called upon each Catholic voter to scratch four of the proposed amend-ments to the State constitution. These relate These relate to the public schools and forbidding the appropriation of public moneys for sectarian institutions. There is considerable excitement, and it is said the Protestanta will gather in force to vote in favor of the amendments above specified.

RECEIVER APPOINTED.

Mr. John J. Swinburne, cashier of the First Nationar Bank of Paterson, has been appointed receiver of the Washington Market Company of that city, which re-cently failed for \$250,000.

BARK Zina (Br), which capsized at the wharf at Charleston, remained in the same position on the 3d inst. The tugboat has been completely sunk by the pressure of the bark, and at high water is probably entirely submerged. She will have to be raised by lighters. The foretoppallantmant of the Ziba touches the wharf on the opposite side of the dock and appears to be much bent, but not broken by the pressure on it. A contract has been concluded with Professor Maillefurt, who has powerful derricks and machinery for lifting, to right the bark, and the work is to be commenced immediately.
